Just got off the phone with Scott.

Basically, CD14 agreed that Circa and Oceanwide should be taking care of the mid-blocks and scrambles that are adjacent to their respective properties, and apparently it's already in the works. A little heads up from CD14 would have been nice. I'll be reaching out to Shawn to request a meeting. Communication between our offices needs to be better.

Hi Ellen,

Did Jim Pugh or Scott Rynders talk to you about the mid-block and scramble crossings at the PLUM hearing yesterday? I was just looking through their letter to the committee (attached) and they asked that the all mid-block and scramble crossings except for Pico and Fig be removed from the development agreement (page 96 of the pdf). Do you know if this modified version of the agreement is what was approved by the committee?
